HOW DOES ABOTT INVESTIGATOR SPONSORED STUDIES WORK?

TYPES OF RESEARCH ELIGIBLE FOR SUPPORT
- Clinical studies
- Observational studies, exploratory or confirmatory studies

ABOTT'S REQUIREMENTS FOR INVESTIGATOR SPONSORED RESEARCH
- Studies must be designed, conducted, monitored, and controlled to ensure scientific and ethical standards are met.
- Studies must be approved by the relevant Institutional Research Board (IRB) or其它 appropriate governing body.
- Studies must be designed to evaluate the safety, efficacy, and/or the clinical benefit of the investigational product.

QUALIFICATIONS OF SPONSOR INVESTIGATORS
- Investigators must have expertise in the field of the investigational product and have a proven track record of conducting high-quality research.
- Investigators must be affiliated with an academic institution, hospital, or other organization that has the necessary resources and expertise to conduct the proposed research.

QUALIFICATIONS OF INVESTIGATOR SPONSORS
- Sponsor investigators must be affiliated with a pharmaceutical, biotechnology, or medical institution that has the necessary resources and expertise to conduct the proposed research.
- Sponsor investigators must have a proven track record of conducting high-quality research.

TIMELY RESPONSES
- Allow investigators to apply their data to scientific rounds or discussions.

REQUIREMENTS FOR COMMERCIAL PRODUCT
- Sponsors must provide a clear description of the investigational product.
- Sponsors must provide information on the investigational product's potential benefits and risks.

STUDY EXECUTION AND MAINTENANCE EXPECTATIONS
- Investigators must ensure that the study is conducted in compliance with all applicable regulations and guidelines.
- Investigators must ensure that the data collected is accurate and complete.

STUDY CLOSURE EXPECTATIONS
- Investigators must ensure that the study is closed in a timely manner.
- Investigators must ensure that all study documents are accurately and completely maintained.

PUBLICATIONS
- Investigators must ensure that all study results are published in a timely manner.
- Investigators must ensure that all study results are published in a manner that is accessible to the scientific community.

KEY AREAS OF INTEREST

ADULT NUTRITION
- Weight loss
- Metabolic disease
- Nutrition and health

PEdiATRIC NUTRITION
- Nutrition
- Infection
- Malnutrition

HOW TO APPLY
- Investigators must submit a proposal that clearly outlines the proposed research, including the objectives, methodology, and expected outcomes.
- Investigators must ensure that all study documents are accurately and completely maintained.
- Investigators must ensure that all study results are published in a manner that is accessible to the scientific community.

SCIENTIFIC STUDY REVIEW MEETINGS
- Investigators must attend scientific study review meetings to discuss the proposed research with other investigators.
- Investigators must ensure that all study documents are accurately and completely maintained.
- Investigators must ensure that all study results are published in a manner that is accessible to the scientific community.
